

Calling all home inspectors! Canada's Premier Home Inspection Conference is back after a break because of...well you know! Home inspectors of all abilities from across Canada are welcome to attend the 2023 OAHI Education Conference.

Hosted by the Ontario Association of Home Inspectors (OAHI), the OAHI Education Conference will be held from **Feb. 24-26, 2023** at the Courtyard by Marriott Oshawa in Oshawa, Ont. bringing together home inspectors, industry-related exhibitors, and educators for a weekend of education, networking, and mentorship.

The OAHI also strongly encourages all home inspection students to come out and learn, network, and enjoy the OAHI experience. The OAHI-RHI Mentorship Café™ will be set up in the Exhibitors' Hall throughout the weekend and is your opportunity to connect with experienced home inspectors one-on-one.

Thanks to you and the team's hard work getting this prepared, so valuable to our businesses and to setting excellent standards in the field." Roy, 2019 delegate.

This conference offers an energizing way to increase your knowledge base, learn from first class educators, mingle with your peers, ask questions, share your experiences, see new products, and restock your tool kit. This is a valuable experience, for home inspectors and ultimately consumers.

The conference theme is Educate:Elevate.

We start with our Offsite Inspection program and debriefing on **Friday Feb. 24** at the hotel. Hosted by Terry Carson, RHI, this program is useful for all home inspectors: a great way to get your hands dirty virtually as you tour a house, discover the defects, and see how an inspector works and thinks and most importantly— writes a report.

The next two days are filled with 16 education sessions on current topics relevant to your home inspection business: Delegates can earn up to **21 Continuing Education Units (CEUs)** in one three-day weekend.

The OAHI is the largest association of its kind in Canada: it has been organizing education conferences for new and established home inspectors throughout its more than 30-year existence. OAHI has set and maintained the standard for home inspection conferences. It's hard to top the professional career development value offered in three days.

Encourage your home inspection peers and those interested in home inspection to attend. This conference is an impressive opportunity to see how OAHI can help them elevate their business and discover what a great group of home inspectors we are.
